

## How to Send an Email

### STEP 1- Login to your Participant Center

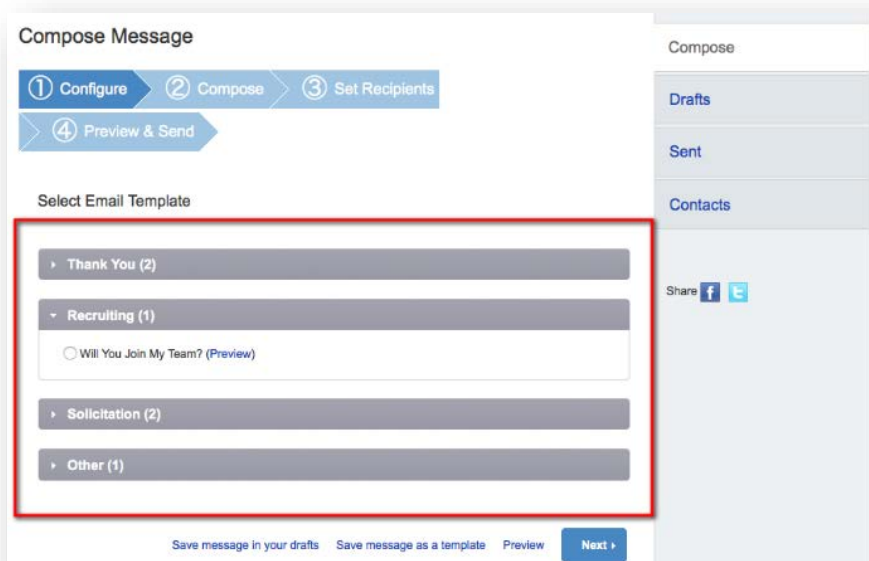

### STEP 2- On your Participant Center home page and click "Email" tab to access the Email functionality.

-CONTINUE ON NEXT PAGE-

### STEP 3-Select an email message template.

### STEP 4- Compose your message

You can edit the SUBJECT line and the text in the BODY of the page. In our templates, you can just enter your personalized information before you're ready to send. Otherwise, feel free to start from scratch and change all of the message to meet your specific needs.

If you are sending this message in bulk to all of your contacts or a specific group, click the "Include personalized greeting". This includes a default salutation and the first name of each recipient listed in the To line of an email message (for example, Dear Pat). If the recipient is not already a contact within your address book, the word "Friend" will display with the salutation instead. **Note:** *If you select to include the personalized greeting in your message, do not manually type in a greeting as well. (That is, you do not want the message to start with two lines that say "Dear Sue" or a "Dear Sue" line followed immediately by a "Hey Sue" line.)*

Be sure to put your name in the closing. You don't have to worry about pasting the URL to your fundraising page as that populates automatically upon sending the email. Click **NEXT**.

**-CONTINUE ON NEXT PAGE-**

Remember to **SAVE** your message often to prevent losing your work in case your session times out from inactivity. (Click “Save Message In Your Drafts” to save your work, see below for “How to access your saved drafts.”)

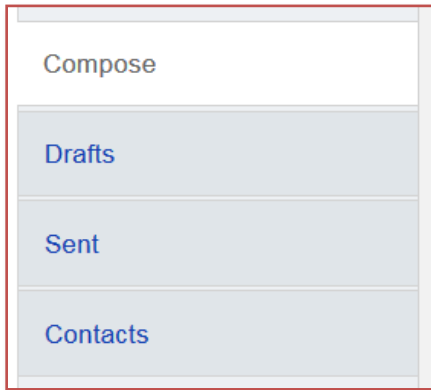

Click **NEXT** if you are ready to **SEND** your email message and select recipients.

### How to Access Your Saved Drafts

When you return to your Participant Center, click on the “Send an Email” tab and click **DRAFTS** to review your saved messages in draft status.

-CONTINUE ON NEXT PAGE-

All of your **SAVED DRAFTS** will appear in a list by the date they are created. Click on the **SUBJECT** to continue editing and finishing sending a message.

### STEP 5- Select Recipients

Your available contacts will be available to select. If you want to add more contacts, you can import them from your Gmail or Yahoo accounts, or from a file upload for all other email service providers. (See our additional guide to complete this step, if needed)

Otherwise, check the box next to the names of the recipients that you would like to receive your email message, and their names will show up in the **RECIPIENT LIST** on the right.
